Central KY Information:

Central Kentucky Wildlife Management Area is located in southeastern Madison County approximately 8 miles southeast of Richmond and is owned by the Kentucky Department of Fish and Wildlife Resources. It consists of a total of 1,847 acres containing open uplands and scattered timber stands 10-20 acres in size. The area can be accessed readily from Dreyfus Road.

Central Kentucky WMA has many uses. Hunting, fishing, wildlife viewing, and photography are just a few of the many activities that can be accommodated on the area. Good populations of quail, rabbit, dove, deer, turkey, and squirrel use the area. The area is heavily used for field trials and rabbits and quail are not hunted on the WMA. Other **special hunting regulations** exist and are printed annually in the Kentucky Hunting and Trapping Guide. Trap and skeet shooting are also available on the area.

WMA Management Objectives:

The management objectives on Central KY WMA are:

- 1) to provide a location for hosting competitive field trials and training dogs for field trials;
- 2) to manage wildlife areas toward the creation, enhancement, and sustainability of permanent wildlife habitats and populations;
- 3) to manage areas for the preservation and enhancement of public outdoor recreational opportunities;
- 4) restore wildlife species to their natural habitats;
- 5) to provide opportunities for fish and wildlife education and demonstrations of sound wildlife management practices.
